

# SDC0880I

PCI Express Industrial I/O Control Board

8-ch Isolated Digital Input

8-ch Isolated Digital Output

## Introduction

SUNIX SDC0880I, industrial isolated digital I/O PCI-Express add-on card, is designed for PC-based IoT Gateway or desktop that enables data acquisition and I/O controls in industrial automation. This board built-in SUNIX Digital-I/O controller, **QiuNiu**, and also built with many of SUNIX advanced features and technologies. In addition, SUNIX provides API software and SDK library, allowing users to program under Windows 10/11 and Linux operating systems. The software package includes a dynamic library.dll, C, C# and Python programming language sample code, making it easier to develop application software. SUNIX SDC0880I board enriches digital I/O expandable capacity with cost-efficient design; it is the best digital I/O control solution for lite-industrial applications.

## Features

- Designed to meet PCI Express Base Specification Revision 2.1.
- With high reliable SUNIX **QiuNiu** Digital-I/O controller.
- Plug-n-Play, I/O address and IRQ assigned by system.
- Ultra low power consumption (<1.5W) design for green environment and industrial application.
- High quality electronic components, low impedance and high stability ensure product quality and reliability.
- Support Microsoft Windows 10/11 and Linux with C, C# and Python programming language sample code.
- Capable of engaging with EdgeX device C SDK for EdgeX service development.
- Certified by CE, FCC, RoHS, and Microsoft approvals.
- Support both standard and Low profile bracket design to meet various of PC chassis.

## Digital I/O Interfaces:

- Expands isolated eight (8) digital input channels with features for all channels.
  - Support both NPN & PNP devices
  - Support both dry and wet contact connections
  - With digital filter for noise reduction
  - Built-in 32-bit counter for all digital in channels
- Expands isolated eight (8) NPN type digital output channels with initial value (Booting & Restart) protection.
- Each channel built-in 2.5KV isolation protection for signal and power, allowing the input signals to be completely floated so as to prevent ground loops.

## Specifications

### Board Level

<b>Interface</b>	PCI Express
<b>Controller</b>	SUNIX <b>QiuNiu</b> Digital-I/O controller
<b>BUS</b>	PCI Express Gen1 x 1 (single Lane)
<b>IRQ &amp; IO</b>	Assigned by System
<b>ESD Protection</b>	±15KV IEC61000-4-2 Air Gap Discharge ±8KV IEC61000-4-2 Contact Discharge

## Digital Input

<b>Type</b>	NPN & PNP	<b>Channel</b>	8-channel
<b>Dry Contact</b>	Logic Level 0: Open; Logic Level 1: Close to GND	<b>Wet Contact</b>	Logic Level 0: 0 to 3VDC; Logic Level 1: 10 to 50VDC
<b>Input Resistance</b>	10KΩ	<b>Isolation</b>	2500 VDC
<b>Counter</b>	32-bit counter on all channel	<b>Frequency</b>	Input Range 2KHz max.
<b>Digital Filter</b>	Digital filter for noise reduction	<b>Pin Define</b>	DI1~DI8, COM, GND
<b>Interrupt Mode</b>	Event trigger (Rising Edge, Falling Edge, Both modes) & polling for all channels		
<b>PCB Connector</b>	DB25 Female connector		

## Digital Output

<b>Type</b>	NPN	<b>Channel</b>	8-channel
<b>Voltage Range</b>	3.5 to 40VDC	<b>Current</b>	500mA per Channel
<b>Isolation</b>	2500 VDC	<b>Pin Define</b>	DO1~DO8, PWR, GND
<b>Initial Protection</b>	Load preset output value automatically during booting and restart		
<b>PCB Connector</b>	DB25 Female connector		

## Software Support

<b>OS</b>	Windows 10 (X86/X64), Windows 11, Linux
<b>SDK</b>	Library: Supporting C, C++, C# and Python languages. C, C# and Python sample code available
<b>Third Party Software support</b>	Capable of engaging with EdgeX device C SDK for EdgeX service development.

## Declaration

<b>Green Product</b>	RoHS, WEEE
----------------------	------------

## Regulatory Approvals

<b>Hardware</b>	CE / FCC / VCCI / BSMI
-----------------	------------------------

## Environment

<b>Operation Temperature</b>	-20 to 70°C (-4 to 158°F)
<b>Operation Humidity</b>	5 to 95% (non-condensing)
<b>Storage Temperature</b>	-20 to 70°C (-4 to 158°F)

## Dimension

<b>PCB Dimension</b>	84.44 x 68.5 mm
<b>Bracket</b>	Standard 121 mm / Low Profile 79.2mm
<b>Bracket Space</b>	1

Unit : mm

## Package

- SDC0880I PCI Express Industrial I/O Control Board
- DB25 Male to Female connection cable, 100cm
- DB25 Male DIN-rail wiring board
- Low Profile Bracket
- Quick Installation Guide

## Pin Assignment

### ■ Digital Input / Output

PIN	Digital Input	PIN	Digital Output
1	DI COM	14	DO PWR
2	DI COM	15	DO PWR
3	DI GND	16	DO GND
4	DI GND	17	DO GND
5	DI 1	18	DO 1
6	DI 2	19	DO 2
7	DI 3	20	DO 3
8	DI 4	21	DO 4
9	DI 5	22	DO 5
10	DI 6	23	DO 6
11	DI 7	24	DO 7
12	DI 8	25	DO 8
13	NC	GND	NC

## Accessories

- DB25 Male to Female connection cable
- 100cm

- DB25 Male DIN-rail wiring board
- 79.1 x 85.5 mm

- Low Profile Bracket
